1. Prior to conducting joint stakeholder consultation, the stakeholders along pedestrian trail were identified. Majority of the stakeholders are business community having private educational

institutions, following by the food restaurants. The information sharing and purpose of the invitation for conducting joint stakeholder's consultation meeting was informed through telephonic conversation and by the individual meetings. Through this they were shared the purpose of doing consultation meeting.

2. The consultation meeting was held at Committee Hall, PIU-KNIP, PD Office. The participants of the meeting were from PIU-KNIP, Design and Supervision Consultants (G3ECs), Contractor and representatives of Schools and Restaurants along Pedestrian Trail from Boat Basin to Bar B Q Tonight @ Bilawal Roundabout. List of participants and pictorial evidence are attached as Annexure-I and Annexure-II respectively.
3. The objective of meeting was to discuss with representatives of Schools and Restaurants about the construction procedures and requiring their cooperation during execution period.
4. Another objective of the consultation meeting was to discuss proposed features along the pedestrian trail from Boat Basin to Bar B Q Tonight @ Bilawal Roundabout and getting feedback of the participants.

Following key points were discussed during consultation meeting:

Sr. No.	Subject of Discussion	Discussion /Identification of the Issues	Resultant Response & Suggestions
1.	Redevelopment of Pedestrian Trail from Boat Basin to Bar BQ Tonight @ Bilawal Roundabout	In late hours the incidents of snatching occurred.	Design proper lightening system to caters issue.
2.		People may do fast driving on the trail.	The design does not allow for the issue raised.
3.		Rush on road occurs during morning and afternoon due to drop and pick-up of students.	The proper parking space is considered for the daily school visitors.
4.		Two way should not be disturbed.	The designs are well prepared accordingly.
5.		Pedestrian movement should not be disturbed.	The designs are well prepared accordingly.
6.		Existing road should be same in dimensions.	The designs will not disturb the existing dimensions.
